

Please don't take away Airl. In a day when my local community radio plays a lot of bad (in my opinion) things, Airl is a light in the dark. I know that it is the same way for so many people in Portland, OR. It is the only upbeat christian radio station we have, and a lot of people would miss it and not have anything 'clean' to listen to. It is a radio station full of not just positive, clean, uplifting music but also full of positive messages of love and hope in life. And that's not for just around here, but all around the world, everywhere you can find Airl on the radio. Airl is a light in this dark world for millions of people around the world, so please let us keep our beloved station. Thank you.
